

Driver Communication Card

The Driver Communication Card is a project of the North Carolina Division of Services for the Deaf and the Hard of Hearing (DSDHH) in partnership with the North Carolina State Highway Patrol.

The purpose of this card is to:

- Facilitate communication between the driver with hearing loss (Deaf, Hard of Hearing) and law enforcement personnel.
- Promote awareness of the expectations and operations of law enforcement personnel during traffic stops.
- Promote awareness of the communication needs of drivers with hearing loss.

Drivers with the communication cards are made aware of:

- Their responsibilities as card holders and procedures for proper use.
- The required security and personal safety actions followed by law enforcement personnel during traffic stops.
- The fact that the card does NOT excuse drivers of any traffic violation.

The cards are thin, lightweight and designed to fit over the sun visor. They should be used for quick communication during traffic stops or other situations involving law enforcement. State and local law enforcement throughout North Carolina are being trained to spot the cards and understand their purpose. Drivers are being trained on the appropriate use of the communication cards.

In order for people with hearing loss to qualify, they must have a valid North Carolina Driver's license and be certified as Deaf or Hard of Hearing.

Driver Communication Cards can be obtained from any of DSDHH's Regional Centers. The Regional Center staff are available to provide assistance, explain the program in detail or provide presentations about the cards at workshops, conferences and meetings at no charge. For more information go to: www.ncdhhs.gov/dsdhh or contact the Regional Center serving your county of residence. Please see back for Regional Center locations.
